

Call for Satellite Symposia:

We would like to bring to your attention a Call for Satellite Symposia for the **International School and Conference on Network Science, NetSci2015**, to be held at the World Trade Center Zaragoza (WTCZ), in Zaragoza, Spain, from June 1 to 5, 2015.

Following the successful tradition of previous venues, NetSci2015 will host a number of stimulating Satellite Symposia on **June 1 and 2** as precursors of the main Conference.

These satellite events are shorter (one-day or half-day) meetings with a focus on a specific topic of Network Science and its Applications. All subjects are welcome, but we would specifically support proposals on themes like: Data-driven Science, Multilayer, Interdependent and/or Temporal Networks, Critical Infrastructure, and Computational Social Sciences. Organizers of a Satellite will be given **1** fully waived registration fee for NetSci2015 that could be used to cover the participation of either an invited speaker to the satellite or for any other participant/organizer.

How to Submit Proposals:

We invite you to submit a proposal for a satellite symposium including **Title, Topic** (brief summary of 1–2 pages) and **Format** (number of speakers, invited vs. contributed, number of participants, length, preliminary program), and **a preliminary list of speakers** (also indicating whether they have been contacted and/or whether they have accepted).

Submit Proposals (single PDF File) by email to: netsci2015satellites@gmail.com

Important Dates:

- Deadline for Proposals: **January 15, 2015** (23:59 CET)
- Notification of Acceptance: **February 16, 2015**.

Information Concerning the Satellite Meetings:

- Dates of the Satellite Symposia: **June 1 and 2, 2015**.
- Location: **World Trade Center Zaragoza (WTCZ), Zaragoza, Spain**.
- Lecture halls will be provided free of charge and audio-visual equipment for projections will be available. A total of seven rooms per day will be available.
- Satellite organizers will be responsible for all aspects of the symposium including **registration for the symposium** and **food/drinks during breaks**. All satellite symposia will be listed in the NetSci2015 Booklet as well as linked and advertised on the conference Website.
- A subdomain on the Website of NetSci 2015 will likely be available upon request.
- **Selection of Satellite Meeting Proposals will be performed by the Scientific Committee of NetSci2015**. In order to optimize the offer of Satellite Symposia in terms of scientific topics, visibility and interactions, the Scientific Committee will reserve the option to propose the merging of selected proposals focusing on similar

topics.

- **A rule of no-repetition of the same talk** across different satellites and main conference will be enforced.

Additional Questions:

If you have any doubt or additional questions, please, do not hesitate to contact Dr. Vittoria Colizza, Chair of Satellite Symposia of NetSci2015, via email at: netsci2015satellites@gmail.com.
